

BENSU ÖZYURT

Istanbul, Turkey

+90 (546) 613 3548 | bozyurt21@ku.edu.tr | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

EDUCATION

Koç University, Collage of Engineering, *Istanbul Turkey*
Electrical and Electronics Engineering, Junior (4th year)

2021-Present

EXPERIENCES

Mercedes-Benz Financial Services, *Istanbul, Turkey.*

July 2024-Present

Drive-Up IT Intern

- Contributed to testing and test automation processes for new developments to increase the time efficiency in testing process.
- Utilized tools like Postman and SQL Server Management Studio to troubleshoot database issues.

Evry Electrical Cars and Transport Solutions incorporated Company, *Istanbul, Turkey*

July- Aug 2023

Software Developer Intern

- Designed and developed a fan app for an electric vehicle in Java programming language.
- Gained knowledge of Control Area Network communication and battery system integration for electric vehicles.

ACTIVITIES

Vestel Innovates Journey in AI, Case Study Challenge

2023

- Won the computation with my team members which was placed in Koç University about developing a machine learning system in Python with an impressive 88% reliability score. Used Pandas to clean data.

Koç University Women Engineers Society, *Member*

2021-present

- Gave several Python classes for a group of high school students in Zoom

INDEPENDENT PROJECTS

Snake Game, *Python Project* | [GitHub link](#)

- Developed a Snake game in Python using the Turtle library, implementing object-oriented programming to structure the scoreboard, snake, and food as separate classes.

Kirke'nin Adası Webiste, *Web Project* | [GitHub link](#)

- Designed and developed a responsive website for the podcast called 'Kirke'nin Adası' using HTML, CSS, JS and Bootstrap framework. Deployed the website through GitHub integrating a custom domain from GoDaddy. Managed version control and updates by pushing changes to GitHub using Git.

Quote of the Day, *Python Project* | [GitHub link](#)

- Developed a GUI application with Python using the Tkinter library, integrating the FavQs API to display random "Quote of the Day" selections.
